WELCOME TO COTTONSOFT LTD

Cottonsoft Limited is a New Zealand operated and managed company; marketing, distributing and manufacturing a range of quality tissue and hygiene products. We're a proud affiliate of Asia Pulp and Paper (APP) who supply most of our raw material (paper) for local manufacture.

APP is the largest vertically integrated pulp and paper company in the world. Integration means we own and manufacture our own brands, can trace our paper to the machine it was made on, and fibre to the trees it was grown from, plus is PEFC certified and sustainably sourced.

Livi is a world-class paper brand servicing the Away From Home market. Quality and range make Livi an ideal choice for businesses that value flexibility and cost-effectiveness without compromising on comfort or hygiene.

GLOBAL CONNECTIONS

Livi is a globally recognised brand currently sold in over 37 countries. Our specialist pulp, paper and dispenser products are sourced from various countries allowing New Zealand to choose the best paper solutions available.

PEFC CERTIFIED

Livi products carry PEFC certification. PEFC is the largest not-for-profit ISO based programme for the endorsement of forest certification. This means that you can be sure that your products are sustainably sourced, with fibre from responsibly managed forests and ecosystems.

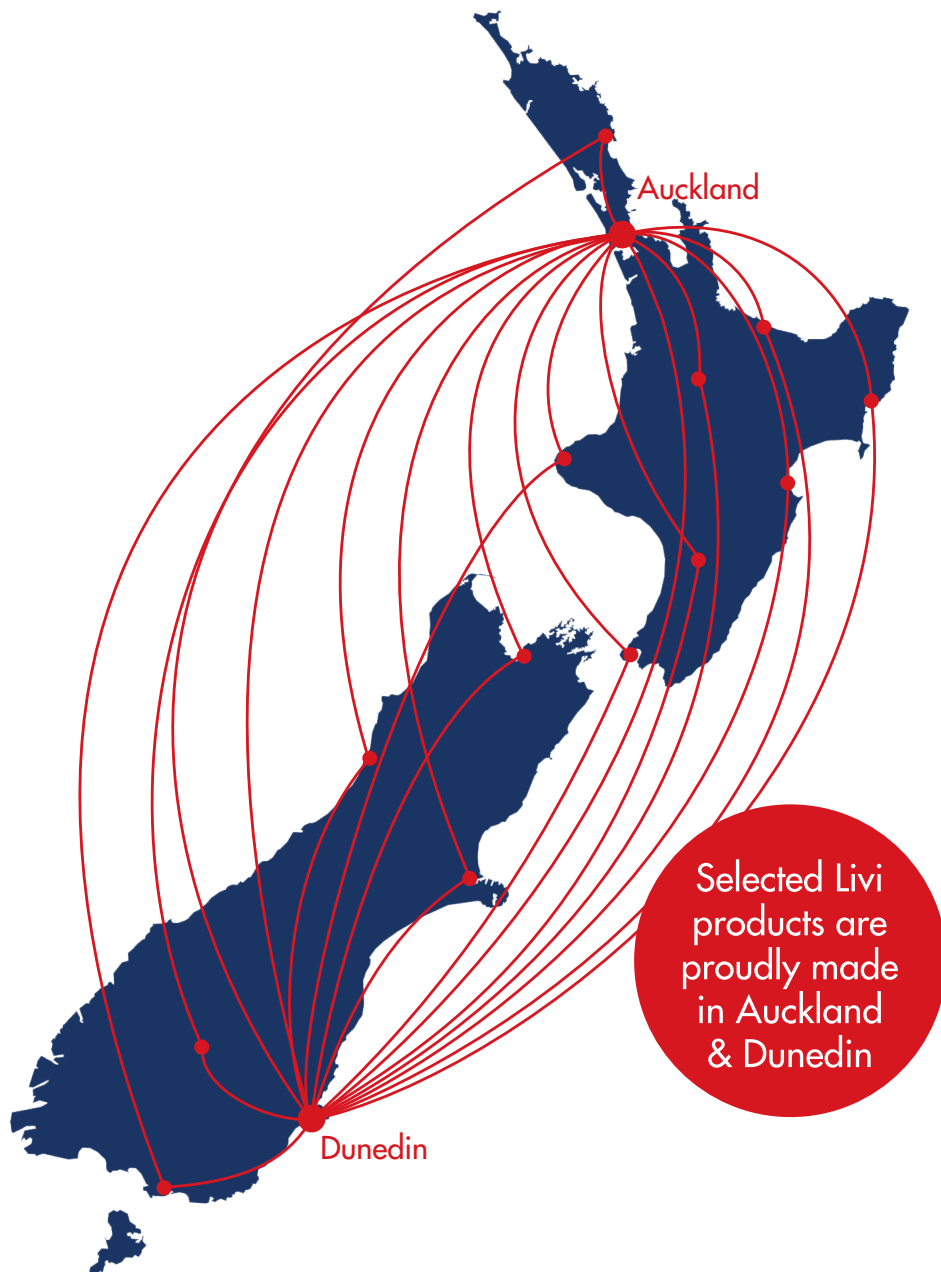

The PEFC certification also extends beyond the environment and ensures that the products are made to the highest social standards including employee rights, education and cultural values. Our products have held this certification since 2009.
